

**HIGH QUALITY. FAST TURNAROUND.
REDUCED COSTS.**

**Pre-owned Honeywell
Aerospace Products**

Honeywell Aerospace Trading (HAT) delivers high quality pre-owned Honeywell avionics, engines, auxiliary power units, starters, environmental control systems, wheels and brakes for retrofit or maintenance applications.

Your source for hard to find Honey

Serving the broad needs of the commercial market, including air transport, regional, business and general aviation, as well as original equipment manufacturers and aircraft maintenance providers, Honeywell delivers exclusive product knowledge and global support to meet your current and future equipment requirements. With our extensive inventory of surplus and reconditioned equipment, we provide you with more choices, faster service, and increased value across the entire family of Honeywell products.

Our pre-owned equipment is sent through a rigorous ISO9001:2000 certified process to verify that each product meets with the highest standards of quality for operation. All of our refurbished and surplus equipment comes with a limited warranty.¹ Additionally, each product features documentation, including FAA Form 8130

and EASA Form 1 airworthiness approval tags, and compliance with ASA-100 certification requirements.

HAT can supply you with the following brands:

- Honeywell
- AlliedSignal
- Bendix brakes
- Garrett
- ABSC
- Messier-Bugatti
- Goodrich
- Bendix/King avionics
- Sperry
- Trimble
- Baker

Honeywell equipment

HAT provides an optimal solution for acquiring aerospace equipment when budgets are tight. With fast and efficient quote responses, Honeywell is uniquely able to provide you direct access to high quality, OEM reliable parts and rare, out-of-production aerospace equipment with a very flexible offering that includes outright sales and exchanges. Our entire pre-owned equipment inventory is owned by Honeywell and our stock is available for immediate purchase. In addition, we can purchase your used Honeywell equipment or spares stock. This can help decrease your inventory levels and create additional revenue for your operations. From avionics to wheels and brakes to airframe accessories, Honeywell is the smart choice for your used equipment needs.

Key Program Benefits

- Highest quality surplus and reconditioned equipment
- Availability of rare and hard to find parts
- Competitive pricing
- Short lead time
- Reduced cost of ownership

Key Honeywell Advantages

Dedicated Resources

Focused organization that is committed to delivering high quality pre-owned aerospace equipment and outstanding service support with every transaction.

Proven Experience

Industry-leading OEM engineering expertise, product knowledge and service support for current and legacy Honeywell aerospace equipment.

Operational Performance

Pre-owned OEM equipment is quality checked through an ISO9001:2000 certified process; features FAA Form 8130 and EASA Form 1 airworthiness approval tags; is in compliance with ASA-100, and comes with a one-year limited warranty¹.

Inventory Availability

Immediate access to the widest range of Honeywell avionics and mechanical equipment, including Bendix/King, Sperry, RCA, Sundstrand, AlliedSignal, and Garrett, as well as a broad range of Honeywell, Bendix, Goodrich, ABSC and Messier-Bugatti wheels and brakes.

Global Network

Worldwide resources providing a full range of 24/7 customer service and program support capabilities.

¹ Contact Honeywell for limited warranty terms and conditions.
